SAFETY INSTRUCTIONS

FAILURE TO FOLLOW THESE SAFETY INSTRUCTIONS MAY RESULT IN SERIOUS INJURY OR PROPERTY DAMAGE AND WILL VOID WARRANTY.

Owner must ensure that all players know and follow these rules for safe operation of the system.

To ensure safety, do not attempt to assemble this system without following the instructions carefully. Check entire box and inside all packing material for parts and/or additional instruction material. Before beginning assembly, read the instructions and identify parts using the hardware identifier and parts list in this document. Proper and complete assembly, use, and supervision are essential for proper operation and to reduce the risk of accident or injury. A high probability of serious injury exists if this system is not installed, maintained, and operated properly.

- If using a ladder during assembly, use extreme caution.
- Two (2) people are recommended for this operation.
- Seat the pole sections properly (if applicable). Failure to do so could allow the pole sections to separate during play and/or transport of the system.
- Climate, corrosion or misuse could result in system failure.
- Minimum operational height is 6’ 6” (1.98 m) to the bottom of backboard.
- This equipment is intended for home recreational use only and NOT excessive competitive play.
- Read and understand the warnings.
- The life of your basketball system depends on many conditions. The climate, placement of the pole, the location of the pole, exposure to corrosives such as pesticides, herbicides or salts are all important factors.
- If technical assistance is required, contact Huffy Sports.
- Adult supervision is recommended when adjusting height.

Most injuries are caused by misuse and/or not following instructions.
Use caution when using this system.

STOP! DON’T go back to store!

NOTICE TO ASSEMBLERS

ALL Huffy Sports Basketball Systems, including those used for DISPLAYS, MUST be assembled and ballasted with sand or water according to the instructions. Failure to follow instructions could result in SERIOUS INJURY. It is NOT acceptable to devise a makeshift weight system.

WARRANTY CARD:
Please remember to complete your product registration form either on-line at: www.huffysports.com or mail-in the enclosed postcard.

SAFETY INSTRUCTIONS

The UNIVERSAL MOUNTING BRACKET is a versatile assembly which allows you to mount your backboard to a pole, on a wall, or on a flat roof or a slanted roof of any pitch. Although the shape of a backboard may vary, it will not affect the installation procedure. Keep in mind that the official height of a basketball goal is 10 feet from the playing surface to the top of the goal rim.

WARNING: To ensure your safety, DO NOT attempt to assemble this system without following the instructions carefully. BEFORE BEGINNING ASSEMBLY READ THE INSTRUCTIONS, AND IDENTIFY PARTS using the hardware identifier and parts list in this document.

WARNING: Mounting the backboard is performed at an elevated height, for your own safety, use a ladder. Two people are required for this operation, one person should not attempt this alone. Use proper precautions.

WARNING: This system is not designed to support a player hanging from the goal or net. Failure to observe this caution may cause bodily injury and/or property damage.

IMPORTANT!! Because installation circumstances cannot be predicted, anchoring and fastening hardware cannot be provided with this kit to mount the UNIVERSAL MOUNTING BRACKET to your particular wall or roof. Long wood screws are recommended for wood and shingled walls and roofs. Expandable anchors are recommended for cement or brick walls and roofs. Consult your local hardware store for the appropriate anchoring and fastening hardware.
IMPORTANT!
Remove all contents from boxes.
