STANDARD EQUIPMENT & FEATURES

- Heavy duty extruded aluminum framing
- Mounting hardware for clamping each cabinet from behind to a vertical support
- Additional tapped hardware allows mounting brackets to be bolted to the sides of each cabinet
- Matte black automotive grade baked on enamel based paint applied to the scoreboard faces for maximum contrast
- Internal horn
- Data output port on each cabinet supports daisy chaining additional displays
- Output port supports optional LED backboard goal light kits
- Handheld three-button controller attaches to main control console, allowing the Shot Clock operator to work without interference
- Junction boxes and patch cables for hardwired installations
- Five-year limited warranty
- Toll free technical support via phone and online for the life of the product

OPTIONAL EQUIPMENT & UPGRADES

- Full-sized 37-key control console with LCD display
- Up to 1,000 feet of data cable per display for hardwired installations
- ScoreLink Wireless RF modem system for wireless communication (two receiver units required)
- Additional warranty and support plans

DIGITS / INDICATORS:

Shot Time digits are 12 inches tall, while Game Clock digits are 6 inches tall. Indicators are 4 inches in diameter. Digits and indicators are formed from matrices of super-bright, long-lasting, energy-efficient LEDs (Light Emitting Diodes). The Shot Time and Visual Horn indicators use red LEDs, while the Game Clock is green. Our LED displays are protected by aluminum masks that allow the hard epoxy shells of the LEDs to be exposed for maximum viewing angles.
